

- 4 poles electrical motor (1450 RPM) with thermal protection and water cooling
- Three ceramic pistons
- Brass linear pump head with built-in by-pass valve
- Integrated elastic joint, for best pump coupling
- Low voltage and delayed Total Stop
- Suction and delivery valves s/s
- Vertical burner with high thermal efficiency steel coil
- Header tank
- High pressure detergent dosing pump
- Control panel with protection cover
- Accessory holder
- S/s base support fixing
- Varnished steel structure

### Standard equipment

Gun  
Lance  
Nozzle  
10m HP hose with  
screw coupling
