## MD200 SILENT

### Standard equipment

*Gun  
Lance  
Nozzle  
10m HP hose with  
screw coupling*

- Diesel engine driven hot or cold water high pressure washer
- Ruggerini RD 210 two-cylinder air cooled diesel engine / speed 3000 Rpm
- Fixed chassis mounted on skids for easy attachment to tow vehicle or similar
- Maximum soundproofing obtained through almost closure of the machine
- Engine throttle control – RS
- Remote control - By-pass BYP
- Plunger pump with nickel plated brass head and ceramic pistons
- Boiler thermal power >80
- Fuel consumption 6.7kg/h
- Fuel tank 54 litres
- Detergent delivery – high pressure
- Exhaust silence
- Easy open cover in order to simplify maintenance

### Universal Applications

When the machines are used in either static or field applications, and there is no access to water supply, the MD200 can be supplied by gravity feeding direct from a header tank, or in the case of the Grimebuster, from its own on-board water tanks.

| CODE | MAX PRESSURE |       | FLOW RATE | POWER HP | ENGINE                  | WATER TEMP °C | WEIGHT KG | DIMENSIONS LxWxH (cm) |
|------|--------------|-------|-----------|----------|-------------------------|---------------|-----------|-----------------------|
|      | BAR          | PSI   | LTR/MIN   |          |                         |               |           |                       |
| 319  | 200          | 3.000 | 15        | 20       | Ruggerini RD 210 diesel | 30-150        | 461       | 148x86x135            |
