

# EDGE

## PUMA

The EDGE Puma Series is a range of compact wall-mounted, industrial cold water pressure cleaners with user friendly functions and a range of specifications to cater for medium heavy to heavy cleaning needs. Powerful, robust and durable, the EDGE Puma series delivers high performance in a space saving design. Fitted with an overload protected motor and anti-corrosion pumps, the EDGE Puma offers the ultimate in versatile cold water high-pressure cleaning. Some models allow use by 2 operators simultaneously.

- Powerful and compact
- Economical – auto stop/start
- Flexible – variable water flow and pressure
- Safety – motor overload protection
- Save time – quick change gun, lance and hose

#### Standard features include:

- Stainless steel frame and covers
- Wall hanging bracket
- Low level water cut out
- Auto start and stop

Hose, gun and lance are **not supplied**.
