

EDGE

V200 MD

Standard equipment

*Gun
Lance
Nozzle
10m HP hose with
screw coupling*

- Diesel engine driven hot or cold water high pressure washer
- Electric start for the diesel engine only / engine electrics 12V DC
- Ruggerini RD 210 diesel engine / speed 3000 Rpm
- A water supply is needed to allow a quick and easy set-up
- Cleaning pressure to 200 Bar / Flow rate up to 15 ltr/min
- Can be used with pressured mains water
- Easy to use controls can be easily converted to suck from an external water tank
- Engine speed proportional to pressure
- High pressure pump features three ceramic pistons and forged nickel plated brass head
- Adjustable flow and pressure
- Low engine fuel and oil safety
- Strong wheeled chassis for manoeuvrability
- Fuel tank 27ltr
- Fuel consumption 6.7 kg/h
- Boiler power >80kW
- Easy open cover in order to simplify maintenance
